

November 2010

Another successful year for HERMES!

HERMES wins BIACC contract serving Brunei International Airport

Continuing to expand globally, we are extremely pleased to announce that HERMES have been selected as the chosen ground handling technology within BIACC; serving all schedule airlines carrying cargoes calling at the Brunei International Airport, including Royal Brunei Airlines, Singapore Airlines, Malaysia Airlines and Thai International, amassing some 100 turnaround flights weekly.

HERMES Security White Paper 2010

Security

Aviation security needs and procedures have drastically changed over the past 10 years, with the x-raying of cargo now a very important part of each cargo handler's process.

It is the specific responsibility of every cargo handler and any of its employees to ensure that security processes and regulations are followed meticulously. Read the HERMES Security White Paper and make sure that your organisation is leaving nothing to chance.

If you require more detailed information on the HERMES system, or would like to find out more about any of the topics in this email please contact us.
